## **CVS Partners with Southwest Signs**

San Antonio, TX – September 12, 2008

CVS has elected to champion with Southwest Signs for another conversion. CVS first selected Southwest Signs as their signage leader during the CVS/Eckerd merger, later to be followed by their CVS/Sav-on conversion.

Today, CVS is in the process of converting 124 stores in California and Arizona from Longs to CVS, and once again has chosen Southwest Signs to work hand-in-hand with them to do so.

Southwest Signs also provides service repairs and maintenance agreements to all existing CVS/Caremark locations nationwide. CVS/Caremark is the largest integrated provider of prescriptions and health related services in the nation.

Southwest Sign Group, a full spectrum sign manufacturing company, was established in 1946 and has been successfully managing national, local, hospitality and custom accounts for the past sixty years. Their corporate headquarters, located in San Antonio, TX, is where they specialize in the conception, design, and installation of all national sign programs.
